FIALAB'S ONLINE SAMPLING AND CQA SYSTEM - THE PROSIAMPLER

Instrument without cover
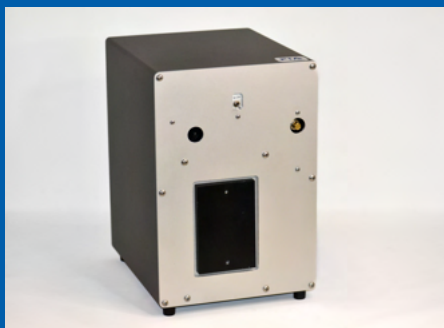

Instrument with cover

PROSIAMPLER PRODUCT FAMILY

250CC (Clarification Cartridge)

SIAlock and Hub

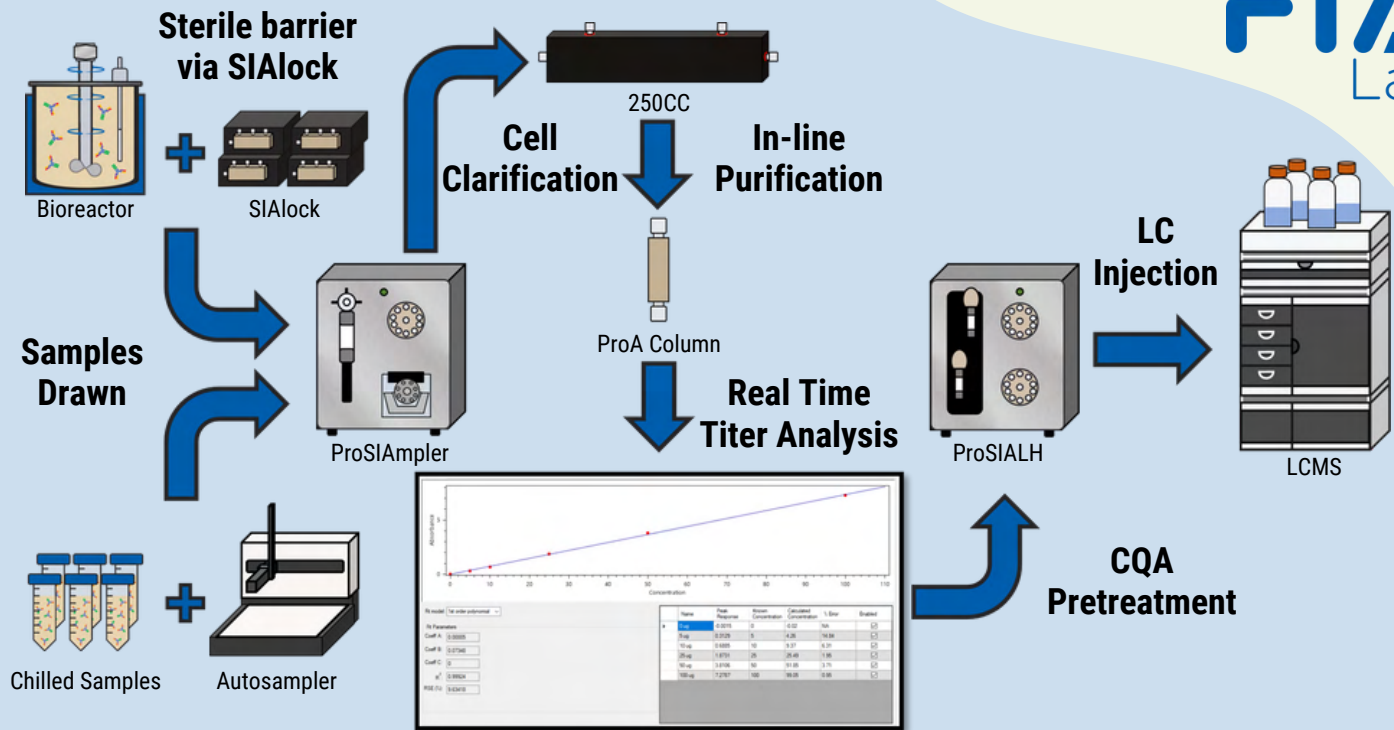

UV Detection and Peltier Heater

ProA Purification Column

Eliminate plastic pipette tips and well plates from analysis.

Automates the most complex pre-treatment procedures.

Clarify as little as 0.250mL per purification step

Sterile barrier via SIAlock

Bioreactor | SIAlock

250CC

Cell Clarification

In-line Purification

Samples Drawn

ProSIAmpler

ProA Column

Real Time Titer Analysis

ProSIALH

LC Injection

LCMS

CQA Pretreatment

Chilled Samples | Autosampler

EXAMPLE SAMPLE FLOW PATH FOR ANTIBODY PURIFICATION AND DIGESTION.

SIAsoft DATA ANALYSIS

Seamless and Intuitive Calibrations

FIAlab's flexible software, SIAsoft, can accommodate multiple parameter changes to satisfy rapidly evolving fields.

More information for FIAlab's ProSIAmpler is available by scanning the QR code above or visiting our website

Calibration data of bovine IgG (SigmaAldrich PN I9640) measured off a ProA column at 280 nm using the ThermoFisher POROS™ resin

rev. date 04/2023
